# BTR-18 Manual

1. Ensure your streaming device has Bluetooth® enabled and that power is applied to the BTR-18.

(The blue LED on the BTR-18 will blink to indicate it is in pairing mode.)

2. Within your streaming device's Bluetooth® setup menu, select " BTR-18 " from the list of pairable

devices.

3. When successfully connected, the Blue LED on the BTR-18 will stop blinking and remain lit. A single

beep will be heard through the connected audio system.

4. Connecting the blue wire (remote out) to the amplifier (remote in) to turn the amplifier on/off.

5. The BTR-18 will remember the last device that was connected to it and reconnect with it auto-

matically. When a connected streaming device is out of range for more than one minute, the

BTR-18 will automatically disconnect this device and return to pairing mode (LED will blink).

6. The BTR-18 can be installed out of sight, as it has a waterproof wireless remote to be used with.
