

EZ LEVER PUMP

Heavy Duty & Smooth Operation

Professional Pumping Systems
DUKSHIN

DLP-2105H

Specification

- Manual up and down piston lever pump
- Delivery volume: about 320cc per stroke
- Self-priming
- Applicable liquids: DEF(AdBlue), non-potable water, windshield washer fluid, antifreeze, agricultural chemicals, lubricants
- Reinforced lightweight plastic construction

1 Air Vent Cap

- Quick & easy stop with durable air vent cap
- Turn clockwise before use and counter clockwise to stop flow

2 Hose Clamp with Hose Holder

- Secure hose clamp with pump outlet
- Discharge hose can be kept safely and conveniently with swivel connection hose holder

3 Lever Handle

- Sturdy grip with ergonomic design
- Convenient and smooth lever operation (Max. 80°)
- Discharges about 320cc per stroke
- Operates smoothly with minimum force

4 Double Blades Piston

- Piston designed with double blades
- Improved suction performance with air tight design

5 Drum Bung Adapter

- Improved grip of drum bung adapter - 60mm (2.4") wide grip makes it easy to tighten and loosen
- Pump head can be fixed in any direction on drum bung adapter making it convenient to use lever handle

※ 2" NPT to 2" buttress adapter(2.5x5) / trisure adapter(2.2x4) / mauser adapter(2.7x6) - Optional parts

6 Telescopic Suction Pipe

- Three-piece telescopic suction pipe is adjustable from 350mm to 985mm to fit most containers
- Suction end outer diameter: 20mm

7 Discharge Hose

- Flexible discharge hose allows high flow speed and easy handling
- Discharge hose length: about 2 meter

8 Discharge Hose Clip

- Discharge hose spout is attachable to receiving container
- Clip is adjustable along the length of spout

9 Interchangeable Spout

- Hose can be replaced with spout
- 19mm (3/4") inner diameter hose can be attached on spout
