THE BACK MOUNT RACK STEERING SYSTEM

APPLICATIONS

Virtually all power-assisted sterndrive boats with wheels up to 16” diameter.

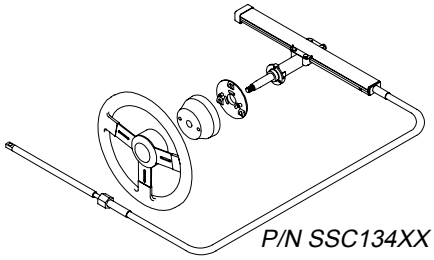
Back Mount Rack Replaces 1984-date SeaStar Solutions “The Rack” steering without dash modification. (Requires use of SSC134XX Back Mount Rack cable.)

For single station use only. Components are available for dual cable systems, but we recommend No-FeedBack steering for all dual cable steered, non-power-assisted outboards and sterndrives. See the NFB Pro Rack Dual Cable and SeaStar PRO sections of this catalog.

FEATURES

- Precise, easy 4 turns lock-to-lock
- Kits include: cable, helm, 90° bezel and hardware
- Standard 3/4” round tapered steering shaft
- Stainless steel cable output ends
- Meets A.B.Y.C. standards
- Meets N.M.M.A. certification requirements

“The Rack” Back Mount Single Station System
(Steering Wheel not included.)



P/N SSC134XX
(single cable)

Traditional SeaStar Solutions mechanical steering is still the choice for sterndrives, inboards and other power assisted applications. It’s just right for power steered boats in which No FeedBack™ systems are not required. Our new Rack features the precision and comfort of four turns lock-to-lock with a cable and helm that install easily from behind the dash. In single cable configurations, this is the best 4-turn choice for power-steered boats.
